Subject: Microsoft Settlement

Dear Sir/Madam: I strongly applaud the proposed settlement with Microsoft. It is fair to all involved and most importantly maps to the findings and conclusions that came out of the Appeals Court. What Microsoft competitors and others fail to accept in their criticism of this proposed settlement is that Judge Jackson's findings and conclusions are NOT the ones of record at this point. The Appeals Court substantially reduced and/or eliminated much of what Judge Jackson produced. The critics of this settlement continue to behave as though the Appeals Court ruling never happened. They continue to refer solely to Judge Jackson's ruling. You have done an admirable job of crafting a remedy consistent with the Appeals Court ruling and ignoring those who lack respect for rule of law and for their own personal reasons cling to the misconception that Judge Jackson's now discredited ruling is still relevant.
